**GENERAL DINNER MEETING**

Tuesday, July 16, 2013

**SPEAKER: Vladimir Lifshits, Principal Development Engineer - John Zink Company, LLC**

**LOCATION:** Bakersfield Petroleum Club  
5060 California Ave., 12<sup>th</sup> Floor  
Bakersfield, CA

**TIME:** Social Hour: 6:00 p.m.  
Tech. Session: 6:30 p.m.  
Dinner: 7:00 p.m.  
Speaker: 8:00 p.m.  
Price: \$25

**July's Social Hour is sponsored by  
Les Clark – Independent Oil Producers Agency**

**Guest Speaker:  
Vladimir Lifshits, Principal Development Engineer - John Zink Company, LLC**

Prior to the acquisition of COEN by John Zink six years ago, Vladimir worked as a Senior Staff Engineer and then Director of R&D since 1989. Mr. Lifshits pioneered the development of many low emission industrial burners, including the first low NOx burners utilizing lean premix combustion. His areas of expertise include advanced burner design, combustion controls and safety systems for industrial boilers and fired heaters. He holds 15 US and Russian patents and has authored/presented countless technical papers and presentations. Recently he contributed substantially to the COEN-Hamworthy Combustion Handbook published this year. Vladimir Lifshits has a combined M.S. degree in Mechanical Engineering and Physics from St. Petersburg Polytechnic Institute of Russia.

**Topic: Progress in Technology for Thermally Enhanced Oil Recovery**

During the past 25 years, progress in technology for thermally enhanced oil recovery was driven primarily by environmental regulations within the San Joaquin Valley. This resulted in the substantial reduction in NOx emissions and the essential elimination of CO emissions from Once Thru Steam Generators (OTSG). Using experience with Coen burner developments, the presentation touches on difficulties encountered by combustion engineers in designing low and ultra-low NOx burners in an effort to achieve the cleanest possible combustion without sacrificing efficiency and reliability. The presentation is illustrated by video clips of ultra-low NOx combustion in operating OTSG and test facility.

**Reservations**

As most of you are aware, we have increased our attendance immensely at the API Dinner Meetings. **In order to guarantee your seat and dinner choice (steak, chicken, salmon, or vegetarian) for the meeting, please send in your RSVP to Julie Grassi at (661) 632.1400 or [jgrassi@chevron.com](mailto:jgrassi@chevron.com) no later than 4:00 PM on Monday, July 15<sup>th</sup>.** It is important that we have our head count and food selections turned in to the Petroleum Club the day before the event so the appropriate amount of tables and seating are setup in advance to accommodate the crowd. Your timely response is appreciated.

## **TECHNICAL SESSION**

### **Speakers: Panel presentation led by Phil Sanders**

Phil Sanders, Business  
Development Manager - Caltrol

Phil has been in the Oil and Gas Industry for 35 years. He started out as an I/E technician and have had various positions in my career. He spent 10 years as a Project Manager on various projects in Kern County and has managed projects as large as \$15M in the LA area refineries. He spent 15 years at two different local System Integration firms as an Operation Manger, Division Manager and Business Development Manager.

Tom Koczynski, Account Sales Representative -  
Rosemount Mag, Vortex and Micro Motion Flow

Fernando Sanchez, Account Sales Representative -  
Rosemount Measurement

### **Topic: The Value Proposition of Wireless Systems in the Production Of Oil And Gas**

The panel will discuss the benefits of wireless technologies which facilitate meaningful improvements in oilfield operations. Specific applications such as steam injection, water injection and well completion will be highlighted. Our first speaker will discuss the value of using wireless measurement to help reduce the overall installation costs. Our second speaker will discuss the same kinds of value around using wireless flow. The third speaker will discuss how integrating wireless systems into the controls can save time to market and help reduce the Total Cost of Ownership, especially around areas that are lacking in infrastructure, allowing companies the opportunity to begin production systems faster.

### **Speaker Sponsor**

This month's Technical Session is sponsored by Lynn Gudmunson of Premier. There will be a drawing held for those who come and actively participate in this learning and knowledge sharing event.

### **Super Prize Raffle**

We've got another fabulous SUPER Prize valued at over \$200 courtesy of API Secretary Don Taft of C&H Testing.

The June Super Prize raffle raised \$2,005 for the API Scholarship Fund. Bring a few bucks to the July meeting and you could be our next winner.

### **Upcoming Events**

To keep things going the right way, we are providing a list of upcoming API activities and events so you can plan for them. This list will be updated as information becomes available.

**July 11<sup>th</sup>**  
**October 4<sup>th</sup>**  
**October 19<sup>th</sup>**  
**November 2<sup>nd</sup>**

**Happy Hour/Mixer**  
**Fall Fun Shoot**  
**Adopt-a-Highway**  
**Oil Baron's Ball**

### **Newsletter Sponsors**

If you wish to become a Newsletter Sponsor, send an email with "Newsletter Sponsor" in the subject line to Newsletter Editor, Laurie Alexander, at [laurie\\_alexander@rocketmail.com](mailto:laurie_alexander@rocketmail.com). Remit your payment online or to Treasurer Debbie Caywood.

### **Sponsorship Rates**

Size	Monthly	Full Year
Business Card	\$30	\$200
Half Page	\$100	\$700
Full Page	\$200	\$1,400

### **API Website**

Visit the API website [www.apibakersfield.org](http://www.apibakersfield.org). There are pictures of events, archived newsletters, and links to other informative websites. You can also pay for the monthly dinner meeting and your newsletter sponsorship; start paying the easy way with API's PayPal buttons! To see additional photos visit our Facebook page [www.facebook.com/APIBakersfield](http://www.facebook.com/APIBakersfield).

### **2013 Adopt-A-Highway**

We had another spectacular turnout on Saturday, June 22<sup>nd</sup>. API Members gathered for the quarterly cleanup of our stretch of Enos Lane between Stockdale and Rosedale Highways.

We started the day with breakfast at the Golden Bull hosted by Doreen Morken and GASSCO.

After reviewing the CALTRANS Safety requirements and donning our PPE, everyone headed off to do their part in API's Community Involvement in support of the Keep California Beautiful Campaign. We gathered

20 bags of trash along the two miles of roadway in just under 2 hours.

Thanks to the following volunteers who worked from 7:00 am to 10:00 am: Gonzalo Muniz (2013 Scholarship Recipient), Edgar Annua, Bob Williams Hal Bopp, Coleton Kerley, Lonnie Kerley, Steven Sturgen, Todd Bivens\*, Sherry Brew, Laurie Alexander, Jimmy Dean\*, Patsy McCurdy, Marcia Rodriguez, Rey Rodriguez, Don Bowen, Scott Bender George Gray, and Bill St.Clair (API Adopt-A-Highway Chairman).

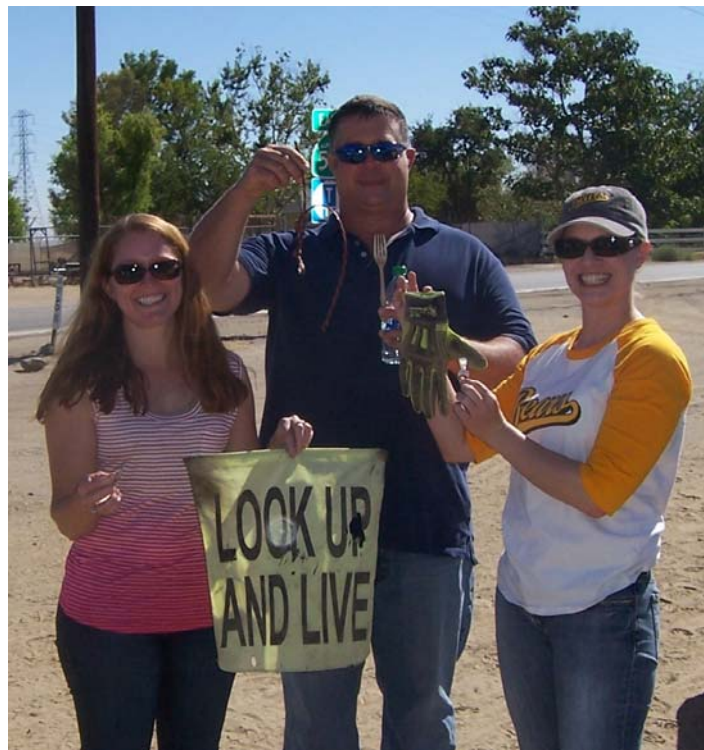

While picking up the trash the volunteers searched for what they thought would be either the most unique or the most valuable find.

Jimmy Dean\* found the “Most Valuable Find”, a LA Lakers Ball Cap.

Todd Bivens\* found the “Most Unique Find”, a composite of several items, a single work glove, a tiny noose, multi-purpose screwdriver/blade, tab to 70s soda pop can, fork (in the road), and a ‘Look Up and Live’ sign. Items were found with the help of Sherry Brew and Laurie Alexander. Be sure to ask Laurie to tell you the story behind their find.

Our Next Adopt-A-Highway outing will be on Saturday, October 19<sup>th</sup>.

### Happy Hour/Mixer

Our very first API Happy Hour/Mixer will be held on Thursday, July 11<sup>th</sup> at Eureka Burger.

**energy API**

API will be sponsoring appetizers and raffling prizes for our first event.

Please join us, members & non-members welcome!

RSVP to Chris Moore at [christopher\\_moore@oxy.com](mailto:christopher_moore@oxy.com)

# Save Energy and Cut Oil & Gas Well Pulling 50%

## Plunger Comparison

API Conventional vs. Farr™ Plunger  
US Patent #6543,543 B2

The FARR Plunger is designed for use with rod pumps in oil and gas wells. Its unique design allows it to pump when sand and other solids are present without sticking. It can be used in any API pump barrel for insert and tubing pumps.

## Muth Pump LLC.

Phone: 661-588-8700

Fax: 661-836-1512

Garold Muth cell: 661-333-1297

David Muth cell: 661-805-6520

[www.muthpump.com](http://www.muthpump.com)

Notice how the solids on the Conventional API pump are **funneled outward** into the **gap** between the plunger connector and the pump barrel wall. This will cause the API plunger to stick in the barrel and/or shorten its run life.

In comparison, notice how the solids in the "FARR™" pump are **channeled inward**, keeping solids in solution at all times, thus not letting them between the plunger and barrel wall.

The FARR™ Plunger will stay in the ground 3 to 6 times longer than a Conventional API plunger.

## FARR PLUNGER ADVANTAGES

- ★ Increased pump life 3-6 times longer
- ★ Increased Production Efficiency
- ★ Increased Production & Profits
- ★ Reduce Environmental Spill Incidents
- ★ Reduce Well Pulling by 50%
- ★ Sticking Plungers Eliminated
- ★ Saves Energy
