Scholarship Time!!!

It's hard to believe we've reached the 2016 halfway point; where does the time go? Our children are out of school for the summer and the family fun is just beginning. Our June General Meeting is always very special and we all look forward to meeting this year's scholarship recipients and their families. I'm proud to announce that we will award \$83,000 to 48 students this year. Many thanks to our 2016 Scholarship Committee: Dan Sliter, James McClard, and Matt Kedzierski. This would not be possible without the help of our API Board, members, supporters, and countless volunteers. Your efforts year round are greatly appreciated. We're still looking for family dinner sponsors (\$90.00 per family), please contact Dan Sliter [661/343-2808](tel:6613432808) if you'd like to sponsor a family.

Upcoming Events: Mark your calendars for our Casino Night August 6, Fall Fun Shoot October 7, and Oil Baron's Ball November 5. More information to come in the near future.

As always, I love to hear your feedback. Please feel free to call or email your comments or suggestions to [661/340-8932](tel:6613408932) or apibakersfieldchapter@gmail.com. I look forward to seeing you at the June Meeting!

FRACTURED — A bold new film from the director of spOILed!

FRACTURED makes the case that virtually every word and phrase we use when we talk about energy production and consumption is wrong and that these incorrect terms cause people to believe in expensive, dangerous illusions. “What the Frack,” “Fossil Fuel,” “Alternative Energy,” “Clean Energy,” “Climate Change Denier,” “Mother Nature”—all of these terms and others cause people to irrationally believe that traditional energy sources are bad. The film flips these terms and exposes the motivations and hypocrisy of anti-energy activist groups and outright frauds such as the films GasLand and GasLand II.

The film is produced in the same entertaining, provocative and highly informative way that audiences appreciated with “spOILed.”

The documentary is shot and we are in the home stretch of editing. We need your help to finish the film and spread it’s pro-energy message far and wide by participating in the Fractured crowd funding campaign. We hope you will participate in the crowd fund campaign and tell everyone in your network about this important film.
