

Shawn Kerns

Shawn Kerns' career in the Oil and Gas industry spans over 25 years in operations, development and engineering. He currently serves as Executive Vice President of Operations and Engineering for California Resources Corporation. From

2014 until 2018 he served as the Executive Vice President of Corporate Development. Past leadership responsibilities include various engineering and technical roles for Occidental in Kansas and Oklahoma, President and General Manager of Vintage Production California, President and General Manager of California Heavy Oil Company, and President and General Manager of Occidental of Elk Hills.

Shawn spent five years in Doha with Oxy Qatar from November 2003 to October 2008 in planning, reservoir management, and operations.

Shawn holds a Bachelor of Science Degree in Electrical and Communications Engineering from the University of Oklahoma, and is a licensed Professional Engineer. He is an active member of the Society of Petroleum Engineers and a California State University, Bakersfield, Foundation Board member.

General Meeting:

Tuesday, July 17, 2018

Guest Speaker: Shawn Kerns

**Executive Vice President –
Operations and Engineering**

**Tech Session Speaker:
Chamila Tissera**

Location:

1933 Speakeasy Bar & Grill

**7900 Downing Ave Bakersfield, Ca
93308**

Schedule:

Social Hour: 6:00PM
Tech. Session: 6:30PM
Dinner: 7:00PM
Speaker: 8:00PM

Price:

\$30.00 w/ RSVP & Pay Online

\$35.00 At The Door

Happy Hour Sponsor:

Chad Horton

Baker Hughes

**Tech Session Sponsor:
Jim Roberts**

Global Elastomeric Products

**Super Prize Sponsor:
Gary Watts**

NorCal Pipeline Services

TECH SESSION: Current Tier 4 Final Compliance Regulations

Chamila Tissera has been with DEUTZ Corporation for 12 years and holds the position of Director of Emissions and Regulatory Compliance. His responsibilities include monitoring developments in engine emission and air quality regulations in North America, European Union, China and other nations and facilitating its implementation in the engine product line, its affiliates and customers. He is experienced in regulatory affairs related to off-road compression ignition, spark ignition, stationary and underground mining engines and provides support to customers with specific local and federal regulatory engine compliance obligations including validating various exemptions. Chamila is often involved in discussions with US-EPA, California ARB, ECCC (Canada) on federal and state engine emission standards, testing and compliance related matters. Additionally, he coordinates DEUTZ engine family exhaust certification activities with the authorities in North America and represents DEUTZ at Engine Manufacturers Association (EMA), a national trade association. Before joining DEUTZ Corporation Chamila was a researcher at the Center for Alternative Fuels, Engines and Emissions (CAFE) at West Virginia University. He holds an electrical engineering degree from West Virginia University and an MBA from Georgia State University.

MEMBERSHIP UPDATES TAKING EFFECT AT ALL 2018 MEETINGS:

Dinners are \$30 for pre-paid RSVPs and \$35 at the door. We encourage you to prepay for your dinner on our website at [Pay On Line](#). If you cannot prepay online, please contact [David Budy](#) for another prepay option. Those who pre-pay either way are eligible for the door prizes following the guest speaker's presentation. In order to guarantee your seat and dinner choice (steak, chicken, salmon, or vegetarian) for the meeting, please send in your RSVP to apibakersfieldchapter@gmail.com no later than 4:00 PM on Monday, January 15th. (If you RSVP without pre-paying, you will not be entered into the drawing.)

Super Prize Raffle:

July's General Meeting SUPER Prize valued at over \$200 is sponsored by Gary Watts with NorCal Pipeline Services. Tickets can be purchased at the dinner and remember all proceeds from the Super Raffle goes towards the API's General Scholarship Fund! You could win the Super Prize like our last months winner Kent Elder at our June Meeting! Enjoy your Yeti Kent!

2018 Scholarship Update

At our June meeting, the SJVC-API awarded 30 scholarships to deserving young local students. This was made possible by the continued efforts of our members and the supporting community. I would personally like to thank all of the API volunteers who, throughout the year, have given so much of their time and energy to support and promote our fund raising activities. Without the dedicated efforts of our members and supporters, none of this would be possible.

I am including just some of the notes received so far from the scholarship recipients so you can see the true appreciation they have for our efforts.

James McClard-Chairman

Brian Burt-Committee Member

Jimmy Dean-Committee Member

Scholarship Committee:

I wanted to thank you again for the scholarship I received. The money I received will help tremendously with my tuition and books at CSUB as I begin my studies in Geology. I enjoyed the dinner and getting to meet you all in person. I look forward to seeing you all again in the near future.

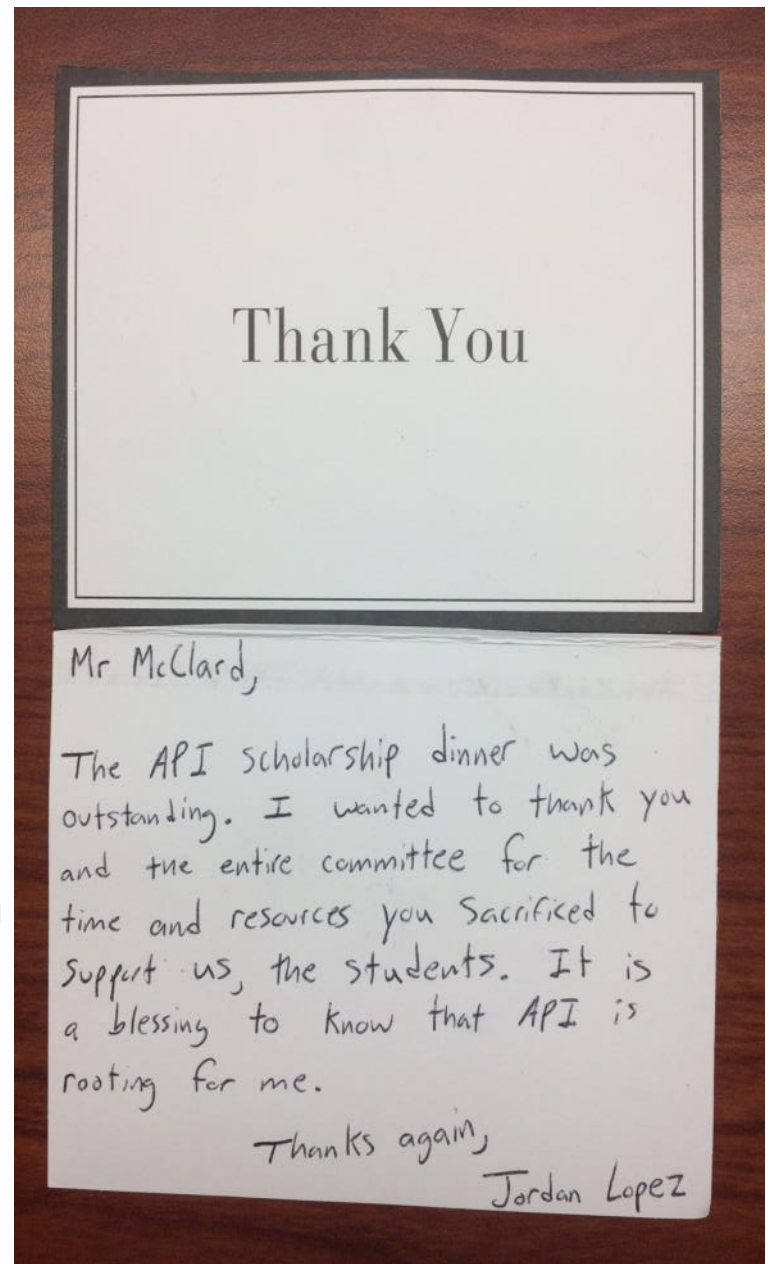

Austin Melton

Dear API Scholarship Committee,

Thank you for the very generous scholarship award. This will be a big help in paying for my education at Cal Poly SLO. I was disappointed that I couldn't attend the dinner and see you in person due to my work schedule. I understand that it was a very fun and informative meeting. Would it be possible to obtain a copy of Mr. Ray Clanton's presentation as I hear it was full of great career advice?

Sincerely,

Jeremy Roberts

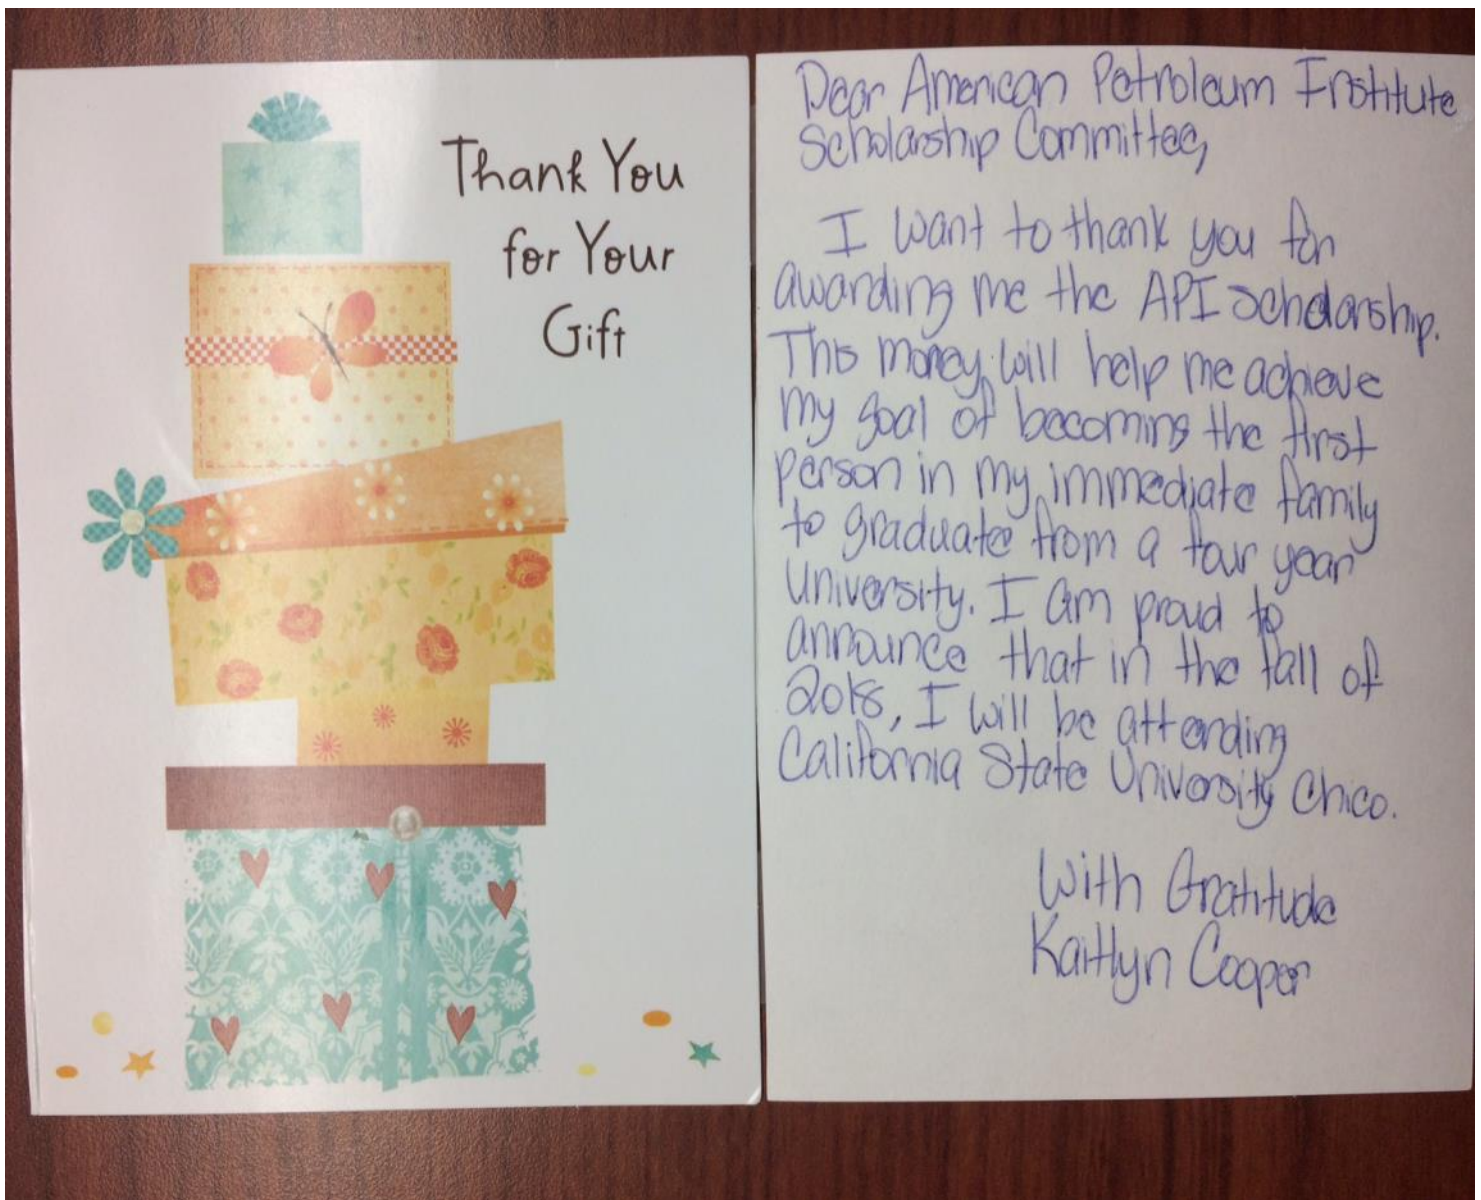

Dear API Scholarship Committee,

Thank you very much for the generous scholarship award. This will go a long way toward paying my tuition at Cal Poly – San Luis Obispo. I really enjoyed the meeting. It looks like the oil industry, though a very serious business, still likes to have a lot of fun. I really appreciated Mr. Clanton's presentation and words of wisdom.

Sincerely,

Natalie Roberts

A Message From The Chair

Dear API members,

This is my first message since April and a lot has happened!

We had a very successful golf tournament in May and made about \$40,000 for the scholarship fund! Jim Roberts and Vance Manning co-chaired the event and it turned out great. I would like to thank them and the many volunteers who made it all work out. I also wish to extend a very big thank you to all of the sponsors and vendors at the tournament who provided the great food and beverages at three golf courses. We started that unique tradition many years ago and have seen other tournaments copy it because it adds so much to the day. The food and drink along the way, make the slow play seem a little more bearable.

In June we had our annual scholarship awards dinner at the Petroleum Club. It was attended by almost 150 people including 23 scholarship recipients and 57 of their family members. Ray Clanton provided some insight and humor for the students and we thank him for speaking that night. We awarded \$80,000 to thirty deserving students and you can see them all on the API Facebook page, in our newsletter, and on our website. James McClard chaired the scholarship committee which included Jimmy Dean and Brian Burt. They did a very good job evaluating the applications and a masterful job presenting the awards at our June meeting.

Now it is July and the weather has gotten a bit warmer and the price of Midway-Sunset crude oil has heated up as well. It was over \$75 per barrel on June 29 and still is today as I write this! That bodes well for the local oil industry as we are seeing some good and increasing activity levels. It is a nice change from 2015.

And speaking of change, we have another change in store for you this month. **After ten years at the Petroleum Club, we will be moving to 1933 Prohibition Club for our monthly general member meetings.** We have enjoyed the time at the Petroleum Club and look forward to a very fulfilling time at the new venue at 1933. Our first speaker to break us in at 1933 will be Shawn Kerns, CRC Executive Vice President. I am sure he will share some things that we all want to hear. We will also be doing our super raffle to support the Golden Empire Gleaners with our Oil Can Do It food drive. So, come and join us this month at our new location and socialize, dine, support the Gleaners, listen to and question Shawn, and enjoy the company of your fellow API members.

Until next time,

Mike Handren

SERVING THE OIL INDUSTRY FOR 50 YEARS!

The company was founded by Charlie Beard in March 1967. Charlie always had the passion and drive to own his own business and was receptive when he was approached by a superintendent from Gulf Oil Company who asked if he would be interested in getting a rig that would later be put to work for Gulf. Rig One was built just south of Taft on historic 25 Hill and operated by Charlie. Three more rigs were added later, laying the foundation for an up and coming well servicing business.

GPS has survived nearly fifty years in the oil industry because of one thing—the company's diligence and commitment to safety and ability to change its practices depending on the wants and needs of its customers. This strong commitment to change has allowed GPS to be successful in a highly competitive industry.

GPS, which started with one rig and three employees, has grown to more than 450 employees working for Aera Energy, Linn Energy, E&B Natural Resources, McPherson Oil Company, Phillips 66, California Resource Company and many other independents around the valley.

The company now has twenty-three doubles and thirty-seven singles, along with a construction division that includes heavy equipment, cranes, welding trucks and an aggregate trucking division.

In 2011, Charlie made Rusty Risi, a long-time employee, his partner and turned the day-to-day operations over to him. Rusty came to GPS from New York in 1979 and learned the business from the ground up. The warm relationship they built has kept the company growing and the company's family atmosphere alive. At GPS, employees feel they are part of something great and the company could not have enjoyed the success it has had without the dedication of all those working in the office and in the field.

General Production Service is dedicated to the future and is working to ensure that new and innovative ideas continue to foster growth with a positive impact on safety, the environment, and the industry.

EFFICIENT

INNOVATIVE

Oil Can Do It Food Drive

San Joaquin Valley
Chapter

The Golden Empire Gleaners were founded in 1985. The idea started in a local Bible study group to “glean” food from the local farms and fields that was going to waste and distribute it to people in need. By the end of 1985 they had a functioning warehouse and had collected 75,000 lbs of food. Over the last 33 years GEG has fed millions of Kern County residents. The current site serves 15,000 people per month.

The GEG mission is to help alleviate hunger and provide food for needy persons of all ages in Kern County. They meet the need through a large network of referring agencies, schools, and religious organizations:

- **Affiliated Agencies** – Serves over 100 churches, missions and shelters
- **After School** – Serves 30 after school and summer programs providing snacks for participating students. Serves families of school children at over 115 participating schools
- **Harvest Time Agencies** – Serves over 70 government agencies and non-profit organizations that identify those in need of emergency food. We also include an opportunity to “Volunteer for Food”
- **Senior Sack** – Serves low-income seniors at 24 sites that include churches and community senior centers

Last year OCDF collected 227,000 lbs and this year the goal is 250,000 LBS.

The Gleaners are in need of our help more than ever this year. Three recent acts of vandalism and theft cost almost \$12,000 to repair. The Gleaners are in need of immediate cash donations. Let's dig deep and help The Gleaners recover.

Bring 5 lbs of food or donate \$10 at the July 17 meeting and receive a raffle ticket to the general raffle.

Annual Oil Can Do It

2018 GOAL

API's 69th Annual Golf Tournament

This year's tournament was an incredible success. There was over \$40,000 raised this year. That is amazing and most certainly allowed the API the ability to give out even more this year in scholarships for the kids. There was a great time had by all. All of us want to give our warmest thanks to the many different volunteers, the generous sponsors that were seen over all 3 courses and most of all you ; our members that signed up and played in our tournament. You all are awesome and the kids thank you all for your continued support. Next year we are looking forward to an even bigger and better tournament. See you then!

API Social Sponsorship

The American Petroleum Institute SJV Chapter is actively looking for networking social sponsorships. These networking socials help to build relationships, market products or services, and promote a positive outlook on the local oil and natural gas industry.

Sponsoring a social will include the following

- Email distribution of your company name to the API contact list (600+ industry related emails)

Company logo and promotional items can be promoted at sign in/raffle table during the social

Social event turnout is typically 40-60 industry related people

Event will be promoted at API general meeting and API newsletter (600+ industry related emails)

Possibility to have joint social with SPE (Society Petroleum Engineers) which will include their email distribution/newsletter promotion

Social Sponsorship Cost

Cost can range from \$600 - \$2,000+

Lower end sponsorships typically do not involve a private room secluded for the event but more of a brewery type setting providing appetizers or food for guest

Higher end sponsorships will typically have a private room (petroleum club, 1933) or any place that will accommodate the event (providing appetizers/Dinner/Alcohol or what is within the budget)

We can work with any budget

If sponsorship costs are too high, we can look to host a co-sponsor social (you and another company) cost split in half

For more information please contact

Bryce Horton – Bryce.horton@bakerhughes.com (661.319.5038)

Paul Piker – Ppiker@trb-oil.com (661.340.4642)

The **Offshore Energy Center** is dedicated to expand the awareness of the vast energy resources beneath the world's oceans, and to chronicle the unique heritage and technological accomplishments of the industry that discovers, produces, and delivers these resources in a safe and environmentally responsible way.

The objectives of this mission statement are being met through a three-fold plan developed by the Center:

Ocean Star Offshore Drilling Rig & Museum. Visitors to the Ocean Star Offshore Drilling Rig & Museum enjoy experiencing the offshore industry first-hand on an actual retired jack-up drilling rig. The museum features three floors of models and interactive displays illustrating the exciting story of offshore oil and gas from seismic technology and exploration and production to pipelining and marine transportation.

Hall of Fame. The Hall of Fame recognizes those persons and technologies that took the industry to sea. Our Pioneers are individuals who distinguish themselves and become the character of the industry through their vision, drive, innovation, and leadership. The Hall of Fame also honors the individuals and companies that contributed to the development of the technologies. Additionally, in 2000, the Pinnacle Award was established to honor contemporary individuals for their contributions and inspirational leadership to the offshore industry.

Education Outreach Programs. Through the Education Outreach Programs, the Offshore Energy Center is committed to promoting awareness and understanding of offshore energy among students and educators. Through teacher workshops, field trips, traveling exhibits, and curriculum materials, existing knowledge is enhanced with information about offshore oil and gas and an awareness of offshore energy's high technology is supported. Additionally, the program is designed to develop an understanding of offshore energy's contribution to the environment and our quality of life.

The **Offshore Energy Center** is based in Houston, the world's energy capital. The **Ocean Star Offshore Drilling Rig & Museum** is docked at Pier 19 in Galveston, less than an hour from downtown Houston, which makes it a wonderful showcase in a perfect location for an "offshore" experience.

Corporate Sponsorships

As part of API's mission to give back to our local community through college scholarships for those pursuing petroleum based degrees and other local educational programs, API has created a corporate sponsorship package that includes membership and tickets to our annual events. We want to thank Chevron for being API's first corporate sponsor and look forward to seeing their employees at our future events. There are several sponsor packages available for each business to decide what is best for them. We look forward to signing more up in the months to come. If you have any questions, please reach out to the API at apibakersfieldchapter@gmail.com

Dear Fellow API Members, Supporters, & Volunteers,

The San Joaquin Valley Chapter of the American Petroleum Institute is a non-profit organization comprised of petroleum related professionals. We strive to foster a spirit of cooperation among those directly or indirectly engaged in the production of oil or gas by encouraging a free exchange of ideas among members. We support several community organizations as well as educational programs each year, and we are proud to award API Scholarships to local students pursuing careers in the petroleum industry or a closely related field. API awarded \$42,000 to 23 Scholarship Recipients in June of 2017 and our goal is to exceed last years' efforts in 2018.

In an effort to support and further our future goals, we are seeking community partners. We have 4 customizable sponsorship packages available for your consideration. I've included suggested package details however, we can contour packages based on your individual or company needs and requirements.

API ticket and event management is an option available to you

⇒ Platinum

⇒ Silver

⇒ Black Gold

⇒ Bronze

API is a recognized 501c3 non-profit organization and your partnership contribution is 100% **tax deductible 95-3086622**. We are committed to investing in the future of our youth, industry, and community; your generosity and support are greatly appreciated!

Please continue to support the American Petroleum Institute, SJVC by attending our monthly meetings, participating in our major events: Golf Tournament, Casino Night, Fall Fun Shoot, Oil Baron's Ball, Networking Socials, sponsorships, volunteering, guest speaking, and etc.

Thank you for making a difference in our community!

(All packages are customizable based on your company preference and requirements)

Being Unconventional is What Set Us Apart.

Since day one Summit ESP was founded on the principal of functioning Unconventionally. Employing the most technically gifted people, giving them the tools to succeed, and responding quickly to our customer's needs has made Summit ESP the industry leader in producing unconventional wells.

Being the most technologically advanced ESP company means Summit ESP can provide the solution your team needs to operate, even in the industry's most dynamic environments.
