

“Lessons learned in changing the story about our industry”

Christina Sistrunk

Christina Sistrunk is president and CEO of Aera Energy LLC, one of the largest California and U.S. oil producers with annual revenues of more than \$2 billion. Delivering 25 percent of the state's production, Aera is one of the nation's most active drillers, operating more than 14,500 wells aimed at powering great today's and better tomorrow's.

Aera as a company holds many of the values of the State of California: it strives to innovate using lean manufacturing and other processes; celebrates the productivity of a culture of people who are passionately engaged and collectively empowered; and advocates for the preservation of the State and prosperity of its people.

Under Sistrunk's leadership, Aera will extend its environmental leadership by building California's largest, and first-of-its-kind solar energy project to use solar steam and solar electricity to power oilfield operations at Belridge oilfield. Sistrunk began her career with Amoco Production Company in Louisiana working in a variety of production, facilities and reservoir engineering assignments focused on Gulf of Mexico engineering and development. In 1998 she joined Shell and held a series of technical and management positions, including operations manager and asset manager in the Gulf of Mexico and a two-year assignment as health, safety and environment manager for the Americas.

Sistrunk had a global role for worldwide exploration and production based in Rijswijk, The Netherlands to lead the creation and implementation of process safety improvement programs. She returned to the U.S. in 2009 as vice president of production assets for the Gulf of Mexico and later became vice president of Arctic capability. In that role, Sistrunk led the development of technology, people and systems to enable responsible Arctic development.

With Aera's commitment to produce the oil that enables millions of Californians to travel to work every day, allows businesses to grow and thrive, and helps California-grown food to arrive at dinner tables, Sistrunk's personal commitment provides a link to make that happen. She serves on the governing board of the Kern County Hospital Authority; is a board member of the California Chamber of Commerce; and member and past chair of the Western States Petroleum Association Board of Directors. Sistrunk also serves on the executive committee and board of directors for the California Business Roundtable.

She is a valued thought partner in the G100 Network of chief executives driving candid conversations about leadership, strategy and navigating the current business environment; California Foundation on the Environment and the Economy (CFEE), bringing together leaders from across the sectors with elected and appointed leaders in forums concerning fundamental environmental and economic infrastructure issues in California; and the Executive Women in Energy Initiative, supporting women leaders in advancing to the top of their organizations to boost industry performance.

A highly-respected leader known for delivering results, Sistrunk was named a Safety in Action Icon for 2016 by DEKRA Insight, for her inspirational, influential and innovative contributions to safety that have touched lives and changed the way people work; one of the 50 Most Powerful Women in Oil and Gas by the National Diversity Council; and one of the Top 100 Most Powerful Women in California, by California Women Lead.

Sistrunk holds a bachelor's degree in chemical engineering and is a Distinguished Engineering Alumna from The Ohio State University. Believing in the power of education as a pathway to the future, Sistrunk serves as a member of the Ohio State College of Engineering External Advisory Council. She and her husband, John, have one daughter, Nicole.

General Meeting:
Tuesday, March 19, 2019

Guest Speaker:

Christina Sistrunk

Aera Energy

Location:
1933 Speakeasy Bar & Grill

Well Abandonments

Super Prize Raffle:

March's General Meeting SUPER Prize valued at over \$200 is sponsored by Nathan Hobson with Howard Supply. Tickets can be purchased at the dinner or online when you RSVP at our website here: : <https://www.apibakersfield.com/pay-online/api-monthly-dinner-meeting/> . All the proceeds from the Super Raffle go towards our API Scholarship Fund. Last month we raised \$1365.00 for the scholarship fund! Our super prize winners at the February meeting were Ivan Patel, Bill Graham and Dan Tuttle. Way to go, guys!

“Scholarship Deadline is Fast Approaching!!”

The SJVC-API scholarship applications are due Sunday March 31st, 2019! If you have yet to access the application, you can find it at <http://www.apibakersfield.com/about-us/scholarships/> . The API board has generously budgeted a large amount for scholarships this year through the continued efforts of all our API members and board. I look forward to your submissions and reading the essays. Please keep in mind that the San Joaquin Valley Chapter of API awards scholarships to local students pursuing a career in the petroleum industry, or a closely related field. These scholarships are awarded to hard working, dedicated and deserving students who are high school seniors or attending college. If you need assistance, or have problems downloading the application online, please contact James McClard at (661) 330-0597 or james.mcclard@bhge.com

General Meetings are held on the third Tuesday of each month (January through October) at the 1933 Prohibition Room in Bakersfield, 7900 Downing Avenue. Social Session starts at 6:00 PM, Technical Session starts at 6:30 p.m., and the Dinner Session starts at 7 p.m.

Dinners are \$30 for pre-paid RSVPs and \$35 at the door. We may have very limited seating for those who do not RSVP. We ask that you RSVP by 5:00 PM on **Thursday March 14, 2019** and prepay for your dinner on our website at

<http://www.apibakersfield.com/pay-online/api-monthly-dinner-meeting/>

Your payment is your RSVP. If you cannot prepay online, please contact David Budy for another prepay option. Those who pre-pay either way are eligible for the door prizes following the guest speaker's presentation. In order to guarantee your seat and dinner choice (steak, chicken, salmon, or vegetarian) for the meeting, please check the appropriate menu selection when you are on the payment page.

Honorary Lifetime Members may RSVP to apibakersfieldchapter@gmail.com with your choice of menu option.

LOY V. (PETE) CALLISON

1933 - 2019 [Obituary](#) [Condolences](#)

LOY V. CALLISON (PETE)

December 15, 1933 - February 10, 2019

Loy V. Callison (Pete) passed away on Sunday, February 10, 2019.

He was an employee with Chevron from 1962 - 1990 when he retired. Pete was an active life time member with the American Legion and a member of the VFW. He worked as a radio operator in the Air Force and went on Kern County's First Veteran Honor Flight to Washington DC. Pete enjoyed playing golf, bowling and loved to travel.

He is survived by his wife Nell, daughters Brenda Rodrigues, Tammy Holder and Nancy Balfour; 9 grandchildren and 8 great grandchildren.

Graveside service will be held Thursday, February 14, at 1:00 pm at Hillcrest Memorial Park and Mortuary.

San Joaquin Valley Chapter

2019 SCHOLARSHIP APPLICATION

Dear Student Applicant,

The American Petroleum Institute San Joaquin Valley Chapter awards scholarships to young men and women who wish to pursue a career in the petroleum industry or a closely related field. These scholarships are awarded to hard working, dedicated and deserving students who are graduating high school seniors who will be attending college in the fall. When submitting your applications for consideration, we expect students to be straightforward and sincere.

PLEASE SUBMIT THE FOLLOWING:

1. Scholarship Application Data Sheet (attached): You may organize the information required on the Data Sheet in resume form if you wish.
2. Letters of Recommendation: A minimum of two and a maximum of three recent letters. A school instructor who is familiar with your current academic accomplishments should submit at least one of these.
3. Academic Transcript: Must be on high school/college/university letterhead. Please submit current or most recent transcript showing courses taken and grades earned during the past two years.
4. Proof of Enrollment: Recipient must be enrolled as a full-time student (12 or more credit hours) at an accredited college or university. Proof of enrollment must be received prior to disbursement of scholarship funds but is not required at the time of submittal of the scholarship application.
5. Essay: Please submit a short essay of approximately 500 words for two essay questions and 200 words for the informational question that are found later in the application.
6. Email Documents: Applications will be required to be emailed to all committee members. Scan and attach all documents in .pdf format. Transcripts and letters of recommendations can be sent via U.S. Mail if needed. If it is necessary that you need to mail the application, we will accept it, but the preference is by email. For any hardships, please contact the Scholarship Committee Chair below.

San Joaquin Valley Chapter

APPLICATION DEADLINE:

Applications must be received no later than Sunday, March 31, 2019. Post mark dated March 31, 2019, if received by mail to below address. Hand delivered by 4:00 pm to address below. Email by 11:59 pm to email addresses below. Again, email is preferred.

Scholarship recipients will be contacted by Wednesday, May 1st, 2019 by email.

Scholarship recipients, or their approved proxies, must be present on awards night, Tuesday, June 18, 2019. Information on dinner will follow.

EVALUATION CRITERIA:

1. All information must be complete, accurate, and verifiable.
2. Recipient must be enrolled as a full-time student (12 or more credit hours) at an accredited college or university and be a current resident of Kern County or attend a Kern County college or university. Proof of enrollment is required prior to disbursement of funds, but not necessary at the time of scholarship application.
3. The selected essay questions must be addressed completely. The essays will be evaluated on content, grammar, organization and originality.
4. Applications will be evaluated based upon the factors written above as well as current letters of recommendation, academics, community involvement, activities and relation to a member of the SJV Chapter of the API. Commitment to the oil industry.

Please note: Being directly related to an API member is not necessary to receive an API scholarship, nor does it guarantee you will receive one.

SUBMIT YOUR APPLICATION WITH OFFICIAL TRANSCRIPTS TO:

James McClard - Scholarship Committee Chair – james.mcclard@bhge.com

Brian Burt - Scholarship Committee – brian.burt@sturgeonservices.com

Eric Bartz – Scholarship Committee – stephen.bartz@gmail.com

Or by USPS mail to:
James McClard
9127 Leslie Deann Ct.
Bakersfield, CA 93312

We look forward to receiving your timely application. If you have any questions, please contact one of the committee members via email.

San Joaquin Valley Chapter

Please answer any two of the three essay questions below. Each question should be answered in a short essay of approximately 500 words.

Essay Question # 1:

California is considered by many to be an energy island. No crude oil pipelines exist to ship crude into the state from the other lower 48 states yet nearly 70% of the crude oil consumed in the state is imported -mostly via oil tanker / sea from foreign sources. Should this be a concern for Californians? Why? What are the risks? What could be done to alleviate those risks?

Essay Question # 2:

https://www.energy.ca.gov/almanac/petroleum_data/statistics/crude_oil_receipts.html

Please refer to the graph above. The data has been supplied by the California Energy Commission, California's primary energy policy & planning agency. It is important to know that all of the crude oil supplied to CA is consumed only in CA.

Please write about the macro trends that you think are driving the data in the graph. Things to consider: 1) Crude oil supply / consumption is about the same 2017 as 1982. 2) Foreign sources of oil supply have increased drastically in the last 20 years. 3) California production is decreasing consistently since 1986 but that decline has steepened in the last five years.

Essay Question # 3:

In early 2018 oil prices were rebounding. At the same time production in the U.S. hit record highs, which contributed to an oversupply. A similar situation occurred worldwide as Saudi Arabia and Russia, two of the largest oil producing countries, also had record production, adding to a surplus of oil on the global markets. This oversupply is a major factor for the softening of prices.

What initiatives can be taken on a global scale to help stabilize production and crude oil prices?

Please answer the informational question below with a short essay of approximately 200 words.

Informal Informational Question:

Describe how your course of studies relates to the energy, oil and gas industry and what your role will be after graduation. Explain your intended contributions to our industry.

The 70th Annual API Golf Tournament Is Set For Friday, May 3, 2019!

If you haven't heard by now, we have had an overwhelming response for our 70th Annual golf tournament. The tournament is sold out with full fields at Sundale, Stockdale and Riverlakes.

We also have fantastic support from our sponsors and BBQ and beverage station hosts. As of today, we have eleven BBQ stations at Sundale, twelve at Stockdale, and eight at Riverlakes. We have fifteen tee sponsors, two Silver Sponsors, 10 Gold Sponsors, three Platinum Sponsors, one Premier Sponsor and one Black Gold Sponsor.

Even with the great support so far, we still have openings for additional tee sponsorships and raffle prizes for the post-tournament celebration and raffle. If you have raffle prizes that you would like to donate, please contact Dan Sliter at dsliter@pcl.com or (661) 343-2808.

Thank you to all our sponsors!

PLEASE SUPPORT OUR SPONSORS WHO MAKE THE NEWSLETTER AVAILABLE TO YOU

Newsletter Sponsorships Should Be Renewed Soon

It is time to renew your newsletter sponsorship! If you are a current newsletter sponsor, your newsletter graphic is in this month's newsletter. If you wish to continue as a newsletter sponsor and have your sponsorship graphic included in next month's newsletter and on the API website, please renew your sponsorship online here: <https://www.apibakersfield.com/pay-online/sponsorship-payments/> . If you are unable to make an online credit card payment, please contact Dave Budy at dbudy@sentinelpeakresources.com to make your payment. Our newsletter is distributed to about 750 members every month, and is a good networking tool. We encourage to use this great API network and support API with your sponsorship. If we do not hear from you this month, we will remove your sponsorship from the newsletter and the website until we have received your renewal.

Newsletter Sponsorship

If you are interested in helping API while advertising your company, the newsletter sponsorship is a great way to do it. Not only is your company displayed in the newsletter, but we also show the same ad on our website and at the general meetings during dinner and between speakers.

There are options for business card, half page, and full page ads. All options are available for a single month or for the entire calendar year.

Payments can be made online at www.apibakersfield.com or by providing payment to David Budy, dbudy@sentinelpeakresources.com.

Graphics can be provided to Gary Watts, gary@norcalpipe.com.

Size	Monthly	Yearly
Business Card	\$30	\$200

**Thermal Reservoir Engineer – Bakersfield, CA**

[Apply Online](#)

Seneca Resources Company, LLC., the oil and gas exploration and production subsidiary of National Fuel Gas Company (NYSE: NFG) is currently seeking a Thermal Reservoir Engineer at its West Division office in Bakersfield, CA.

The Thermal Reservoir Engineer will report to the Director, West Division and serve as an integral member of the West Operations and Production team and will also work closely with the Development Planning and Reservoir Engineering teams. Responsibilities include, but are not limited to the following:

- Lead implementation as well as contribute to development of thermal recovery strategies for Seneca's San Joaquin Valley heavy oil assets (including Midway Sunset, Lost Hills and Coalinga Fields) in collaboration with Reservoir Engineering, Production Engineering, Facilities, and Operations groups, including:
 - Review and reconcile steam forecasts
 - Recommend and review steam rate testing, allocations, well-pattern level steam rates, distribution system changes and optimization of same
- Lead the well surveillance process for thermal operations to identify and carry out EOR improvement opportunities
- Work closely with Production Engineers to ensure that Seneca's production and thermal recovery plans are implemented with optimal success
- In collaboration with the Development & Operations Planning group, provide economic data and analysis of Seneca's capital and LOE projects in the West, including recommendations for changes and optimizations
- Assist with the review of potential acquisitions as they arise

Job Qualifications

- Bachelor's Degree in Engineering from an accredited college or university and a minimum of eight (8) years combined production and reservoir engineering experience in onshore thermal recovery options is required. Candidates with 12+ years of combined production and reservoir engineering experience in onshore thermal recovery options highly preferred
- Must be authorized to work in United States of America with a valid driver's license with no restrictions to operate a company vehicle

Seneca Resources offers a competitive salary and a comprehensive benefits package.

To view the full job description, minimum qualifications, and/or submit a resume please visit Seneca's Careers Page at:

An Invitation From APW

APW—Association of Petroleum Wives extends an invitation to all the ladies to come to their upcoming Charity Bunco—Denim, Derricks & Diamonds on March 14th, 2019 6 pm, at Stockdale Country Club. This event is a fundraiser for APW's chosen charity this year—ADAKC—the Alzheimer's Disease Association of Kern County. It looks to be another sellout this year. \$50 is single ticket, or 4 sponsorship tables are available at \$400 for a table of 4, with printed recognition at table. Dinner and a champagne reception is included along with many fabulous raffle prizes worth thousands of dollars. We would love any donation items you may wish to make!

APW is celebrating 70 years! APW is an autonomous Not-for-Profit Organization whose goal is to promote friendship and moral support between women whose husbands are in or retired from the petroleum industry. Oil wives are constantly being relocated and we are here to help them make adjustments in learning about our city, make new friends, finding homes, getting children in school. We have a wide range of social activities—some include Couples events. And just FYI—we know you love our annual Sporting Clay Shoot coming up on April 5th at Kern County Gun Club!

Visit our Facebook page: APW-Association of Petroleum Wives, Bakersfield, our website: apwbakersfield.com, and see photos on Instagram: [apw_bakersfield](https://www.instagram.com/apw_bakersfield). Membership info and events are posted on all sites! We will also email our monthly newsletter chock full of events, photos and includes a membership application. Dues are \$45. Guests are always welcome! Please let us know if your company has new employees relocating to Bakersfield so that we may welcome their wives!

SERVING THE OIL INDUSTRY FOR 50 YEARS!

The company was founded by Charlie Beard in March 1967. Charlie always had the passion and drive to own his own business and was receptive when he was approached by a superintendent from Gulf Oil Company who asked if he would be interested in getting a rig that would later be put to work for Gulf. Rig One was built just south of Taft on historic 25 Hill and operated by Charlie. Three more rigs were added later, laying the foundation for an up and coming well servicing business.

GPS has survived nearly fifty years in the oil industry because of one thing—the company's diligence and commitment to safety and ability to change its practices depending on the wants and needs of its customers. This strong commitment to change has allowed GPS to be successful in a highly competitive industry.

GPS, which started with one rig and three employees, has grown to more than 450 employees working for Aera Energy, Linn Energy, E&B Natural Resources, McPherson Oil Company, Phillips 66, California Resource Company and many other independents around the valley.

The company now has twenty-three doubles and thirty-seven singles, along with a construction division that includes heavy equipment, cranes, welding trucks and an aggregate trucking division.

In 2011, Charlie made Rusty Risi, a long-time employee, his partner and turned the day-to-day operations over to him. Rusty came to GPS from New York in 1979 and learned the business from the ground up. The warm relationship they built has kept the company growing and the company's family atmosphere alive. At GPS, employees feel they are part of something great and the company could not have enjoyed the success it has had without the dedication of all those working in the office and in the field.

General Production Service is dedicated to the future and is working to ensure that new and innovative ideas continue to foster growth with a positive impact on safety, the environment, and the industry.

INNOVATIVE

API Social Sponsorship

The American Petroleum Institute SJV Chapter is actively looking for networking social sponsorships. These networking socials help to build relationships, market products or services, and promote a positive outlook on the local oil and natural gas industry.

Sponsoring a social will include the following

- Email distribution of your company name to the API contact list (600+ industry related emails)

Company logo and promotional items can be promoted at sign in/raffle table during the social

Social event turnout is typically 40-60 industry related people

Event will be promoted at API general meeting and API newsletter (600+ industry related emails)

Possibility to have joint social with SPE (Society Petroleum Engineers) which will include their email distribution/newsletter promotion

Social Sponsorship Cost

Cost can range from \$600 - \$2,000+

Lower end sponsorships typically do not involve a private room secluded for the event but more of a brewery type setting providing appetizers or food for guest

Higher end sponsorships will typically have a private room (petroleum club, 1933) or any place that will accommodate the event (providing appetizers/Dinner/Alcohol or what is within the budget)

We can work with any budget

If sponsorship costs are too high, we can look to host a co-sponsor social (you and another company) cost split in half

For more information please contact

Bryce Horton – Bryce.horton@bakerhughes.com (661.319.5038)

American Petroleum Institute does not charge or profit for setting up Social events

The **Offshore Energy Center** is dedicated to expand the awareness of the vast energy resources beneath the world's oceans, and to chronicle the unique heritage and technological accomplishments of the industry that discovers, produces, and delivers these resources in a safe and environmentally responsible way.

The objectives of this mission statement are being met through a three-fold plan developed by the Center:

Ocean Star Offshore Drilling Rig & Museum. Visitors to the Ocean Star Offshore Drilling Rig & Museum enjoy experiencing the offshore industry first-hand on an actual retired jack-up drilling rig. The museum features three floors of models and interactive displays illustrating the exciting story of offshore oil and gas from seismic technology and exploration and production to pipelining and marine transportation.

Hall of Fame. The Hall of Fame recognizes those persons and technologies that took the industry to sea. Our Pioneers are individuals who distinguish themselves and become the character of the industry through their vision, drive, innovation, and leadership. The Hall of Fame also honors the individuals and companies that contributed to the development of the technologies. Additionally, in 2000, the Pinnacle Award was established to honor contemporary individuals for their contributions and inspirational leadership to the offshore industry.

Education Outreach Programs. Through the Education Outreach Programs, the Offshore Energy Center is committed to promoting awareness and understanding of offshore energy among students and educators. Through teacher workshops, field trips, traveling exhibits, and curriculum materials, existing knowledge is enhanced with information about offshore oil and gas and an awareness of offshore energy's high technology is supported. Additionally, the program is designed to develop an understanding of offshore energy's contribution to the environment and our quality of life.

The **Offshore Energy Center** is based in Houston, the world's energy capital. The **Ocean Star Offshore Drilling Rig & Museum** is docked at Pier 19 in Galveston, less than an hour from downtown Houston, which makes it a wonderful showcase in a perfect location for an "offshore" experience.

Corporate Sponsorships

As part of API's mission to give back to our local community through college scholarships for those pursuing petroleum based degrees and other local educational programs, API has created a corporate sponsorship package that includes membership and tickets to our annual events. We want to thank Chevron for being API's first corporate sponsor and look forward to seeing their employees at our future events. There are several sponsor packages available for each business to decide what is best for them. We look forward to signing more up in the months to come. If you have any questions, please reach out to the API at apibakersfieldchapter@gmail.com

Dear Fellow API Members, Supporters, & Volunteers,

The San Joaquin Valley Chapter of the American Petroleum Institute is a non-profit organization comprised of petroleum related professionals. We strive to foster a spirit of cooperation among those directly or indirectly engaged in the production of oil or gas by encouraging a free exchange of ideas among members. We support several community organizations as well as educational programs each year, and we are proud to award API Scholarships to local students pursuing careers in the petroleum industry or a closely related field. API awarded \$80,000 to 42 Scholarship Recipients in June of 2018 and our goal is to exceed last years' efforts in 2019.

In an effort to support and further our future goals, we are seeking community partners. We have 4 customizable sponsorship packages available for your consideration. I've included suggested package details however, we can contour packages based on your individual or company needs and requirements.

API ticket and event management is an option available to you

⇒ Platinum

⇒ Silver

⇒ Black Gold

⇒ Bronze

API is a recognized 501c3 non-profit organization and your partnership contribution is 100% **tax deductible 95-3086622**. We are committed to investing in the future of our youth, industry, and community; your generosity and support are greatly appreciated!

Please continue to support the American Petroleum Institute, SJVC by attending our monthly meetings, participating in our major events: Golf Tournament, Casino Night, Fall Fun Shoot, Oil Baron's Ball, Networking Socials, sponsorships, volunteering, guest speaking, and etc.

Thank you for making a difference in our community!

(All packages are customizable based on your company preference and requirements)
