January 2023

Denice L. Gary-Pandol

President, The Middle East Initiative

U.S Senate Candidate

“U.S. Security and Energy Security”

BIOGRAPHICAL SYNOPSIS

As a Political Scientist with a life-long passion for government service, I took my degrees in Political Science with an advanced degree in International Relations. My core field of study in graduate school was Middle Eastern affairs, United States foreign policy. Since that time, my central focus has remained on issues of National Security.

Graduating from the School of International Relations at the University of Southern California; I worked my way through undergraduate and then graduate school. At the start of graduate school, I was then recommended by the Chair of Middle Eastern Studies at the School of International Relations to join Analytical Assessments Corporation, AAC, a think tank that dealt with national security concerns. AAC operated in the Los Angeles and the Washington, D.C. areas.

Working with **Top Secret clearances** for AAC, I conducted research, analyzed, and wrote on matters regarding U.S. national security, the Arab-Israeli conflict, and other critical topics. My research and writing focused principally on the Middle East and Islamic terrorism for specific government agencies including the United States Departments of Defense and State, the Central Intelligence Agency, the Defense Intelligence Agency, and other defense and intelligence-related organizations.

After completing graduate school, I was hired as a public relations writer on classified projects for U.S. intelligence at Eaton, Information Management Systems Division. After two years at Eaton, I went on to start my own consulting firm to write and produce public relations materials for publication.

I have also worked as an adjunct instructor, teaching political science courses. I have taught at the University of California, Irvine; the American Jewish University; Whizin Center of Continuing Education; and various community colleges, as well as Summit Bible College. I worked in this capacity for a number of years.

General Meeting:

January 17, 2023

Guest Speaker:

Denice L. Gary-Pandol
President, The Middle East
Initiative

U.S. Senate Candidate

Technical Speaker:

online pay**

\$35.00 at door

Social Hour Sponsor:

Russell Thibodeaux
Key Energy Services

Tech Session Sponsor:

Russell Thibodeaux
Key Energy Services

Super Prize Sponsor:

Anibal Araya

Technical Session

Adam Bell

Executive Director Pyles Boys Camp

Founded by the Petroleum Industry in 1949, R.M. Pyles Boys Camp has been described as the “Best Kept Secret in the Sequoias.” This award-winning program has helped over 28,000 disadvantaged boys become leaders in our communities. We will take a brief look at the program’s history, what it is doing today, and what help is needed. While many people have heard about Pyles’ Kern County BBQ fundraiser, this presentation will share a bit more about the program, including why President George H.W. Bush named Pyles one of his 1,000 Points of Light.

Bio:

Adam Bell is a native of Rochester, NY and got his start in Youth Development at the most-attended overnight camp in Western New York. He spent a total of 16 summers on their staff, including 5 years as Camp Director. He is an active volunteer with the American Camp Association, and has received regional and national awards for his volunteer work as an Accreditation Standards Visitor, Local Council of Leaders Member, conference presenter and National Conference Committee Member. He has presented Youth-Development workshops across the United States, Canada, and Asia.

Adam believes strongly in the camp experience and its ability to prepare our young men for life. By spending time away from home, unplugging from technology and being present in the moment, boys can become independent while learning skills that are needed in today's workforce. When it comes to learning and practicing the 21st Century Skills of communication, collaboration, critical thinking and creativity, no environment can compare to a summer camp experience.

A Message from the Chair

Welcome Back and Happy New Year API Members!

As we welcome the New Year and all the changes that it will bring, we look back at 2022 with all the obstacles we have overcome to get here, political challenges, public opinion / perception of hydrocarbon products. While these obstacles may have seemed to be insurmountable last year, through the determination and resiliency of our fellow industry colleagues, we are still here adapting to the changes, improving on the processes, and educating the public on facts while having some fun along the way. For myself, I can't think of a better place for us to pool together to support one another than with all of our fellow API members. As we look forward, we have an energized board that have already started planning our 2023 activities. Our Golf Tournament (May 5) sign up will be available soon on the web site. Our January meeting is available to RSVP on website, and we are looking forward to seeing everyone. Our Vice Chair has found U.S. Senatorial Candidate Denice Gary-Pandol for question-and-answer session on issues that may affect us. I would love to hear your feedback, comments, Ideas, and suggestions. Please feel free to contact me Rthibodeaux@keyenergy.com or apibakersfieldchapter@gmail.com or call 661.205.3088

Looking forward to seeing you

Russell Thibodeaux

FALL FUN SHOOT

San Joaquin Valley
Chapter

2023 SCHOLARSHIP APPLICATION

Dear Student Applicant,

The American Petroleum Institute San Joaquin Valley Chapter awards scholarships to young men and women who wish to pursue a career in the petroleum industry or a closely related field. These scholarships are awarded to hard working, dedicated, and deserving students who are graduating high school seniors or continuing college students who will be attending college or trade school in the fall. When submitting your applications for consideration, we expect students to be straightforward and sincere.

PLEASE SUBMIT THE FOLLOWING:

1. Scholarship Application Data Sheet (attached): You may organize the information required on the Data Sheet in resume form if you wish.
2. Letters of Recommendation: A minimum of two and a maximum of three **recent** letters. A school instructor who is familiar with your current academic accomplishments should submit at least one of these.
3. Academic Transcript: Must be on high school/college/university letterhead. Please submit current or most recent transcript showing courses taken and grades earned during the past two years.
4. Proof of Enrollment: Recipient must be enrolled as a full-time student (12 or more credit hours) at an accredited college or university. Proof of enrollment must be received prior to disbursement of scholarship funds but is not required at the time of submittal of the scholarship application.
5. Essay: Please submit a short essay of approximately 500 words for two essay questions and 200 words for the informational question that are found later in the application.
6. Email Documents: Applications will be required to be emailed to all committee members. Scan and attach all documents in .pdf format. Transcripts and letters of recommendations can be sent via U.S. Mail if needed. If it is necessary that you need to mail the application, we will accept it, but the preference is by email. For any hardships, please contact the Scholarship Committee Chair below.

San Joaquin Valley Chapter

APPLICATION DEADLINE:

Applications must be received no later than Friday, March 31, 2023. Post mark must be dated no later than March 31, 2023, if received by mail to the below address. Hand delivered by 4:00 pm to address below. Email by 11:59 pm to email addresses below. Again, email is preferred.

Scholarship recipients will be contacted by Wednesday, May 17th, 2023 by email.

Scholarship recipients, or their approved proxies, must be present on awards night, Tuesday, June 20, 2023. Information on dinner will follow.

EVALUATION CRITERIA:

1. All information must be complete, accurate, and verifiable.
2. Recipient must be enrolled as a full-time student (12 or more credit hours) at an accredited college, university, or trade school and be a current resident of Kern County. Proof of enrollment is required prior to disbursement of funds, but not necessary at the time of scholarship application.
3. The selected essay questions must be addressed completely. The essays will be evaluated on content, grammar, organization, and originality.
4. Applications will be evaluated based upon the factors written above as well as current letters of recommendation, academics, community involvement, activities, and relation to a member of the SJV Chapter of the API. Commitment to the oil industry.

Please note: Being related to an API member is not necessary to receive an API scholarship, nor does it guarantee you will receive one.

SUBMIT YOUR APPLICATION WITH OFFICIAL TRANSCRIPTS TO:

Mike Handren – Scholarship Committee Chair – mhandren@yahoo.com
James McClard - Scholarship Committee – james.mcclard24@gmail.com
Brian Burt - Scholarship Committee – burtbw25@yahoo.com
Eric Bartz – Scholarship Committee – stephen.bartz@crc.com

Or by USPS mail to: Mike Handren
12309 Ashentree Lane
Bakersfield, CA 93312

We look forward to receiving your timely application. If you have any questions, please contact one of the committee members via email.

Please answer the two essay questions below. Each question should be answered in a short essay of approximately 500 words.

Essay Question # 1:

Political forces seem to be trying to end the oil industry particularly in California, and in the U.S. in general. California currently imports 65-70% (~1 million barrels every day) of the oil it consumes via tankers today. Some believe that oil production should be stopped in CA. What are the potential impacts to the state of CA & Kern County, in particular, if oil production ceases? What are the impacts to the USA if environmentalists destroy the oil industry?

Essay Question # 2:

Governor Newsome has mandated that all new vehicles purchased in California by 2035 must be electric vehicles, while also calling for the shutting down of nuclear power plants and fossil fuel powered (natural gas or coal) electrical generation. Given the current demands on the electrical infrastructure in California, is this a reasonable mandate? Are there missing pieces in this mandate for electric vehicles? Can you propose a better solution?

Please answer the informational question below with a short essay of approximately 200 words.

Informal Informational Question:

Describe how your course of studies relates to the energy, oil, and gas industry and what your role will be after graduation. Explain your intended contributions to our industry.

APPLICATION DEADLINE: FRIDAY, March 31, 2023

10 in 2022: Ten Policies to Unleash American Energy and Fuel Recovery

America's core promise – the freedom to be, to create, to aspire – drives the opportunity for all Americans to have better lives and reach new heights. **American energy empowers American opportunity.** Given today's global unrest and economic uncertainty, this has never been more true.

Americans have been here before, with fuel shortages in the 1970s serving as a vivid reminder. **Today, energy demand is outstripping supply.** Inflation is the highest it has been in 40 years. Fuel prices have soared. Putin's brutal aggression in Ukraine has united the West against his regime and the energy he once sold to Europe. It is all connected – and alarming. But a solution is beneath our feet.

Our nation is blessed with abundant natural gas and oil that is the envy of other countries. It is a foundation of our economy, **supporting more than 11 million U.S. jobs**, and makes our American way of life possible. It has revived Main Street storefronts, restored U.S. manufacturing, driven job creation and bolstered our nation's ability to compete. It has made America safer in a turbulent world.

Given global circumstances, it is time for an energy awakening – for the natural gas and oil supply chain and the government at all levels to open a new era of working together **to ensure that essential energy resources are unlocked; to encourage investment opportunities and accelerate infrastructure development; and to strengthen global energy security, affordability and reliability.**

Bottom line: Washington policymakers must confront the global mismatch between demand and supply that has driven higher fuel prices by supporting greater U.S. production. To address the growing crisis we face, Congress and the President must support energy investment, create new access and keep regulation from unnecessarily restricting energy growth. **The world is calling out for energy leadership. America can and should step up fast.**

1. **Lift Development Restrictions on Federal Lands and Waters** The Department of the Interior (DOI) should swiftly issue a 5-year program for the Outer Continental Shelf and hold mandated quarterly onshore lease sales with equitable terms. DOI should reinstate canceled sales and valid leases on federal lands and waters.
2. **Designate Critical Energy Infrastructure Projects** Congress should authorize critical energy infrastructure projects to support the production, processing and delivery of energy. These projects would be of such concern to the national interest that they would be entitled to undergo a streamlined review and permitting process not to exceed one year.
3. **Fix the NEPA Permitting Process** The Biden administration should revise the National Environmental Policy Act (NEPA) process by establishing agency uniformity in reviews, limiting reviews to two years, and reducing bureaucratic burdens placed on project proponents in terms of size and scope of application submissions.
4. **Accelerate LNG Exports and Approve Pending LNG Applications** Congress should amend the Natural Gas Act to streamline the Department of Energy (DOE) to a single approval process for all U.S. liquefied natural gas (LNG) projects. DOE should approve pending LNG applications to enable the U.S. to deliver reliable energy to our allies abroad.
5. **Unlock Investment and Access to Capital** The Securities and Exchange Commission should reconsider its overly burdensome and ineffective climate disclosure proposal and the Biden administration should ensure open capital markets where access is based upon individual company merit free from artificial constraints based on government-preferred investment allocations.
6. **Dismantle Supply Chain Bottlenecks** President Biden should rescind steel tariffs that remain on imports from U.S. allies as steel is a critical component of energy production, transportation, and refining. The Biden administration should accelerate efforts to relieve port congestion so that equipment necessary for energy development can be delivered and installed.
7. **Advance Lower Carbon Energy Tax Provisions** Congress should expand and extend Section 45Q tax credits for carbon capture, utilization, and storage development and create a new tax credit for hydrogen produced from all sources.
8. **Protect Competition in the Use of Refining Technologies** The Biden administration should ensure that future federal agency rulemakings continue to allow U.S. refineries to use the existing critical process technologies to produce the fuels needed for global energy markets.
9. **End Permitting Obstruction on Natural Gas Projects** The Federal Energy Regulatory Commission should cease efforts to overstep its permitting authority under the Natural Gas Act and should adhere to traditional considerations of public needs as well as focus on direct impacts arising from the construction and operation of natural gas projects.
10. **Advance the Energy Workforce of the Future** Congress and the Biden administration should support the training and education of a diverse workforce through increased funding of work-based learning and advancement of STEM programs to nurture the skills necessary to construct and operate oil, natural gas and other energy infrastructure.

Kern County Honor Flights needs Volunteers!

Kern County Honor flights needs volunteers to help run events and volunteer guardians to help take veterans to Washington D.C. Guardians are assigned a veteran and assist during all travel and events. Guardians must pay their own travel package cost (\$1200). For more information or to apply go to:

www.honorflightkerncounty.org

Website News

Check out the new site for Jobs and Internships.

Under the Resources heading you can find spots to post job openings and resumes for positions desired.

There is also a spot to post Internships if your company is seeking applicants.

General Meetings

General Meetings are held on the third Tuesday of each month (February through October) at the 1933 Prohibition Room in Bakersfield, 7900 Downing Avenue. Social Session starts at 6:00 PM, Technical Session starts at 6:30 p.m., and the Dinner Session starts at 7:00 p.m.

Dinners are \$30 for pre-paid RSVPs and \$35 at the door. We may have very limited seating for those who do not RSVP. We ask that you RSVP by 5:00 PM on the Thursday before meeting and prepay for your dinner on our website at:

<http://www.apibakersfield.com/pay-online/api-monthly-dinner-meeting/>

Your payment is your RSVP. If you cannot prepay online, please contact Aaron Altramirano for another prepay option. Those who pre-pay either way are eligible for the door prizes following the guest speaker's presentation. In order to guarantee your seat and dinner choice (steak, chicken, salmon, or vegetarian) for the meeting, please check the appropriate menu selection when you are on the payment page.

Honorary Lifetime Members may RSVP to: apibakersfieldchapter@gmail.com with your choice of menu option.

Enterprise Holdings makes large scholarship donation

A special thank you to Linda Bliss and Enterprise Holdings for donating \$5000 to the scholarship fund.

Please consider Enterprise for your rental vehicle needs.

Enterprise Car Rental and Enterprise Truck Rental.

See ad on page 24

Time to Renew Your Newsletter Sponsorships!

As you read through the newsletter, you can see many of our supporters sharing information about their businesses. These are our newsletter sponsors. We thank them for their support and remind them that it is time to renew your sponsorship. **We will need your renewal by the end of this month in order to continue your sponsorship in future newsletters.** So please follow the instructions below to renew. Thank you.

If you are interested in helping API while promoting your company, the newsletter sponsorship is a great way to do it. Not only is your company displayed in the newsletter, but we also show the same information on our website and at the general meetings during dinner and between speakers.

There are options for business card, half page, and full page informational pieces. All options are available for a single month or for the entire calendar year.

Payments can be made online at www.apibakersfield.com or by providing payment to Aaron Altramirano, aarona@westernfalcon.com. Graphics can be provided to Tim Frame, tim@mts-stim.com. Contact Tim Frame if you have any questions or need assistance (661) 447-5123.

API Social Sponsorship

The American Petroleum Institute SJV Chapter is actively looking for networking social sponsorships. These networking socials help to build relationships, market products or services, and promote a positive outlook on the local oil and natural gas industry.

Sponsoring a social will include the following

- Email distribution of your company name to the API contact list (600+ industry related emails)
- Company logo and promotional items can be promoted at sign in/raffle table during the social
- Social event turnout is typically 40-60 industry related people
- Event will be promoted at API general meeting and API newsletter (600+ industry related emails)
- Possibility to have joint social with SPE (Society Petroleum Engineers) which will include their email distribution/newsletter promotion

Social Sponsorship Cost

- Cost can range from \$600 - \$2,000+
- Lower end sponsorships typically do not involve a private room secluded for the event but more of a brewery type setting providing appetizers or food for guest
- Higher end sponsorships will typically have a private room (petroleum club, 1933) or any place that will accommodate the event (providing appetizers/Dinner/Alcohol or what is within the budget)
- We can work with any budget
- If sponsorship costs are too high, we can look to host a co-sponsor social (you and another company) cost split in half

For more information please contact:

Eddie Gutierrez— eddie42.gutierrez@ymail.com

American Petroleum Institute does not charge or profit for setting up social events

San Joaquin Valley
Chapter

API Sponsorship Packages

Dear Fellow API Members, Supporters, & Volunteers,

The San Joaquin Valley Chapter of the American Petroleum Institute is a non-profit organization comprised of petroleum related professionals. We strive to foster a spirit of cooperation among those directly or indirectly engaged in the production of oil or gas by encouraging a free exchange of ideas among members. We support several community organizations as well as educational programs each year, and we are proud to award API Scholarships to local students pursuing careers in the petroleum industry or a closely related field. API awarded \$75,000 to 29 Scholarship Recipients in June of 2022 and our goal is to exceed this years' efforts in 2023.

In an effort to support and further our future goals, we are seeking community partners. We have 4 customizable sponsorship packages available for your consideration. I've included suggested package details, however, we can contour packages based on your individual or company needs and requirements.

API ticket and event management is an option available to you

⇒ Platinum

⇒ Silver

⇒ Black Gold

⇒ Bronze

API is a recognized 501c3 non-profit organization and your partnership contribution is **100% tax deductible, Tax ID# 95-3086622**. We are committed to investing in the future of our youth, industry, and community; your generosity and support are greatly appreciated!

Please continue to support the American Petroleum Institute, SJVC by attending our monthly meetings, participating in our major events: Golf Tournament, Fall Fun Shoot, Oil Baron's Ball, Networking Socials, sponsorships, volunteering, guest speaking, etc.

Thank you for making a difference in our community!

(All packages are customizable based on your company preference and requirements)

Servicing all Oil & Gas markets across North America

Society depends on a reliable source of energy.

We recognize the challenges and opportunities you're facing in today's highly competitive and increasingly complex oil and gas markets.

- Drilling, cementing, and stimulation
- Refineries, petrochemical, and natural gas plants

Our extensive product line, service commitment, and 50+ years of expertise provide key advantages to our Oil & Gas partners.
