Vince Fong

CA Legislature Update

Representative Fong will talk about the political climate in Sacramento relating to energy and natural resources policy and how to best advocate for safe, reliable, and local energy production.

In 2016, Vince Fong was elected to the California State Assembly. He currently represents the 32nd Assembly District which encompasses Kern and Tulare Counties.

During his tenure, Vince has been a strong advocate for businesses. Vince is the leading advocate for domestic energy production and continues to promote safe, clean California energy. He is also the leading voice on the supply chain crisis and he consistently advocates to improve California's water infrastructure.

Vince serves on the following Assembly committees: Budget Committee (Vice Chair), Transportation Committee (Vice Chair), Health Committee, Insurance Committee, Public Employment and Retirement Committee and Privacy and Consumer Protections Committee.

Vince began his career with Congressman Bill Thomas, Chair of the Ways and Means Committee, working on international trade policy. He then returned home to serve the residents of Kern County.

For nearly a decade, Vince served as the district director to the Republican Leader in the U.S. House of Representatives, House Leader Congressman Kevin McCarthy, until Vince was elected to the State Assembly in 2016.

Vince is a lifelong resident of Kern County. He earned a bachelor's degree from UCLA and masters from Princeton University. He serves on the boards of the Jim Burke Education Foundation and Honor Flight Kern County where he works to send WWII, Korean War and Vietnam Veterans to Washington, DC to see their memorials.

A Message from the Chair

Happy July,

It is July and summer is in full swing. We had a great Scholarship meeting this past month and seeing all the accomplishments of these students gave me excitement to what our community may be like once these students are out working amongst us in future years. As summer is heating up so is the Oil Can Do It drive, our board has planned some new events for this summer. The first will be the Oil Can Dunk It , that will be held outside at our July meeting. We have volunteers from some of our independent operators, community leaders, and even API Board members that have agreed to get into Dunk Tank to assist in raising money for Oil Can Do It; please look for flyer with times and names of those you would like to Dunk. This will be a really fun event happening during the meeting social hour. For our July meeting we are looking forward to hearing from Vince Fong with updates from Sacramento followed by questions. Adopt-a-Highway is July 15; please signup on the website. Please save the date of Aug 10th as we will be bringing back API Trivia Night; so please get your teams together. The signup on the web for our Fall Fun Shoot is filling up and promises to be another great event. The Signup for Oil Barron's Ball in November should be available this week to start reserving tables. Please RSVP early for July meeting to be included in the door raffle, (it helps the restaurant with staffing and meals knowing how many to count on)

Our July Meeting will be held at 7900 Downing Ave in Bakersfield; I am looking forward to seeing all of you on July 18th so please RSVP early. I would love to hear your feedback, comments, Ideas, and suggestions. Please feel free to contact me apibakersfieldchapter@gmail.com or call 661.302.6899

**THE SOLUTION
IS HERE**

A GLOBAL ENERGY CRISIS, AN AMERICAN SOLUTION

MAKE

PROBLEM: NOT ENOUGH ENERGY TO MEET RISING DEMAND

Washington should do more to support investment in new U.S. natural gas and oil.

SOLUTION: INCREASE AMERICAN NATURAL GAS AND OIL

Reasonable and smart energy policies are critical to supporting investment in long-lived natural gas and oil production.

MOVE

PROBLEM: LACK OF ENERGY INFRASTRUCTURE TO MEET GROWING DEMAND

Delays in permitting and reviews are blocking needed natural gas, oil and refined products infrastructure.

SOLUTION: STRENGTHEN U.S. ENERGY INFRASTRUCTURE, INCLUDING LNG PROJECTS

Infrastructure review and permitting processes must be streamlined to better distribute energy to Americans and to help meet rising demand from allies.

IMPROVE

PROBLEM: DELIVER AFFORDABLE, RELIABLE ENERGY WHILE CREATING A LOWER-CARBON FUTURE

Meeting energy demand with reliable, accessible energy while reducing greenhouse gas emissions is the challenge of our time – one that natural gas and oil are rising to address.

SOLUTION: CONTINUE INNOVATING TO REDUCE CARBON EMISSIONS AND PROTECT THE ENVIRONMENT

American natural gas and oil companies are committed to innovating lower-carbon technologies, lower-carbon energy development and cleaner products. Initiatives such as The Environmental Partnership are collaborating to help reduce emissions. Companies are also leading on carbon capture, storage and utilization, and looking to lead on hydrogen technology.

SOLUTIONS

MAKE

- **Increase Access for Energy Development:** The U.S. Interior Department should issue a robust, five-year offshore leasing program and hold quarterly onshore lease sales, with equitable terms.
- **Protect Refining Technology Competition:** Federal rules should continue to allow U.S. refineries to use critical process technologies to provide necessary fuels to consumers.
- **Signal Support for Needed Energy Investment:** Federal regulators should reconsider the Securities and Exchange Commission's (SEC) overreach on climate disclosure and should support needed capital investment in oil and natural gas.

MOVE

- **Designate Critical Infrastructure:** Major energy infrastructure should be deemed in the national interest and eligible for streamlined review.
- **Support Pipeline Safety Innovation:** Pipeline and Hazardous Materials Safety Administration (PHMSA) reauthorization should ensure the ability to deploy the latest safety technologies, emerging fuels and sustainable operations.
- **Revise the National Environmental Policy Act (NEPA):** NEPA reviews affecting many types of infrastructure should be uniform across federal agencies and limited to two years.
- **Accelerate Liquefied Natural Gas (LNG) Projects and Lift Supply Chain Bottlenecks:** Ensure the free flow of energy and commerce by expediting LNG project approval, lifting steel tariffs and relieving port congestion.

IMPROVE

- **Clarify Tax Credits for Carbon Capture, Utilization and Storage (CCUS), Hydrogen and Clean Fuels:** Additional guidance for Section 45Q will help advance CCUS and reduce the nation's carbon footprint. In addition, Section 45V tax credits for hydrogen from all sources should value equally each ton of carbon dioxide reduced.
- **Advance Low-Carbon Infrastructure:** The permitting regime for low-carbon infrastructure should be consistent, timely and predictable to encourage investment.
- **Support STEM Education:** Washington should continue to support the training and education of a diverse energy workforce through science, technology, engineering and math courses.

General Meetings

General Meetings are held on the third Tuesday of each month (February through October) at the 1933 Prohibition Room in Bakersfield, 7900 Downing Avenue. Social Session starts at 6:00 PM, Technical Session starts at 6:30 p.m., and the Dinner Session starts at 7:00 p.m.

Dinners are \$35 for pre-paid RSVPs and \$40 at the door. We may have very limited seating for those who do not RSVP. We ask that you RSVP by 5:00 PM on the Thursday before meeting and prepay for your dinner on our website at:

<http://www.apibakersfield.com/pay-online/api-monthly-dinner-meeting/>

Your payment is your RSVP. If you cannot prepay online, please contact Aaron Altramirano for another prepay option. Those who pre-pay either way are eligible for the door prizes following the guest speaker's presentation. In order to guarantee your seat and dinner choice (steak, chicken, salmon, or vegetarian) for the meeting, please check the appropriate menu selection when you are on the payment page.

Honorary Lifetime Members may RSVP to: apibakersfieldchapter@gmail.com with your choice of menu option.

Time to Renew Your Newsletter Sponsorships!

As you read through the newsletter, you can see many of our supporters sharing information about their businesses. These are our newsletter sponsors. We thank them for their support and remind them that it is time to renew your sponsorship. **We will need your renewal by the end of this month in order to continue your sponsorship in future newsletters.** So please follow the instructions below to renew. Thank you.

If you are interested in helping API while promoting your company, the newsletter sponsorship is a great way to do it. Not only is your company displayed in the newsletter, but we also show the same information on our website and at the general meetings during dinner and between speakers.

There are options for business card, half page, and full page informational pieces. All options are available for a single month or for the entire calendar year.

Payments can be made online at www.apibakersfield.com or by providing payment to Anibal Araya, anibal.araya@crc.com. Graphics can be provided to Tim Frame, tim@mts-stim.com. Contact Tim Frame if you have any questions or need assistance (661) 447-5123.

API Social Sponsorship

The American Petroleum Institute SJV Chapter is actively looking for networking social sponsorships. These networking socials help to build relationships, market products or services, and promote a positive outlook on the local oil and natural gas industry.

Sponsoring a social will include the following

- Email distribution of your company name to the API contact list (600+ industry related emails)
- Company logo and promotional items can be promoted at sign in/raffle table during the social
- Social event turnout is typically 40-60 industry related people
- Event will be promoted at API general meeting and API newsletter (600+ industry related emails)
- Possibility to have joint social with SPE (Society Petroleum Engineers) which will include their email distribution/newsletter promotion

Social Sponsorship Cost

- Cost can range from \$600 - \$2,000+
- Lower end sponsorships typically do not involve a private room secluded for the event but more of a brewery type setting providing appetizers or food for guest
- Higher end sponsorships will typically have a private room (petroleum club, 1933) or any place that will accommodate the event (providing appetizers/Dinner/Alcohol or what is within the budget)
- We can work with any budget
- If sponsorship costs are too high, we can look to host a co-sponsor social (you and another company) cost split in half

For more information please contact:

Todd Bivens, tbivens@bak.rr.com

API Sponsorship Packages

Dear Fellow API Members, Supporters, & Volunteers,

The San Joaquin Valley Chapter of the American Petroleum Institute is a non-profit organization comprised of petroleum related professionals. We strive to foster a spirit of cooperation among those directly or indirectly engaged in the production of oil or gas by encouraging a free exchange of ideas among members. We support several community organizations as well as educational programs each year, and we are proud to award API Scholarships to local students pursuing careers in the petroleum industry or a closely related field. API awarded \$75,000 to 29 Scholarship Recipients in June of 2022 and our goal is to exceed this years' efforts in 2023.

In an effort to support and further our future goals, we are seeking community partners. We have 4 customizable sponsorship packages available for your consideration. I've included suggested package details, however, we can contour packages based on your individual or company needs and requirements.

Servicing all Oil & Gas markets across North America

Society depends on a reliable source of energy.

We recognize the challenges and opportunities you're facing in today's highly competitive and increasingly complex oil and gas markets.

- Drilling, cementing, and stimulation
- Refineries, petrochemical, and natural gas plants

Our extensive product line, service commitment, and 50+ years of expertise provide key advantages to our Oil & Gas partners.
